## To the Speaker and Members of the Legislative Assembly of New South Wales.

The petition of residents of the Northern Beaches Local Government Area

- it would remove and undermine local council planning powers;
- the one-size fits all approach risks overriding local concerns, such as geotech hazards, bushfire and flood risk;
- it risks overloading local infrastructure, such as state roads and sewerage works;
- it would contribute to tree canopy loss on private property, increasing urban heat.

The undersigned petitioners therefore ask the Legislative Assembly to oppose and prevent enactment of these proposed new housing standards in a State Environmental Planning Policy or any other instrument.
